MARBLE
PSYCHOLOGICAL SERVICES

Who we Are

Marble is the leading psychological service that is dedicated to the psychological wellbeing of the community in Myanmar. Based in Yangon, Marble provides a full range of professional psychological services for Adults, Children and Organisations. Our team of qualified professionals includes Clinical Psychologists, Child Psychologists and Counselors. We are a dynamic team with a vision to make a change in the lives of our clients. Our flexible environment supported by the passionate team at Marble offers the opportunity to work when you want whilst travelling and exploring new lands. The role is ideal for committed team players with ambition and drive to deliver a positive change in a society with limited access to mental health care.

The members of our team come from different training backgrounds and strive to offer diversity in approach and thinking. We work together to cultivate a warm and supportive environment in which we can share our ideas and experiences with each other.

We consistently maintain professionalism by following strict ethical codes and ensuring confidentiality. We are here to provide high-quality care that helps our clients make positive changes that they want in their lives.

**We are dedicated to
the psychological well-being of
the community in Myanmar.**

The Ideal Candidate

A successful applicant must meet the following requirements:

-  Psychologist, Counselor or therapist with a minimum of a master's level qualification with registration in their home country.
-  Passion to provide your clients with the highest quality of care

Our ideal candidate will be an individual with a professional and enthusiastic demeanor. They will have strong communicative skills and exercise patience, encouragement and respect when interacting with clients.

The successful candidate will have an in depth understanding of theoretical models and an up-to-date knowledge of the latest evidence and resources. They will apply models flexibly to integrative formulations and assessments of need. The interventions they provide will be in line with evidence-based practice. They will develop appropriate treatment plans that are adaptive to a variety of circumstances, requests and cultural values. They will follow ethical guidelines and maintain credibility as a professional.

They will provide support and insight for other members, and bring a collaborative energy to the shared work environment.
